

TRANSCEND

A KKM Production

"Transcend" is the story of a dancer's journey, navigating the various stages of life. It explores the transformative experiences shaped by influences that can either uplift or challenge her - a journey as unique as life itself. Life, with its unexpected twists and turns, is a blend of personal desires, external conflicts, and inner battles. Yet, those who are driven by passion and committed to their dreams find solace and strength in ways they could never imagine - ways that often leave a lasting impression on those around them.

No matter how steep the fall, they rise with renewed determination and vigour, their energy and aspirations resonating long after their presence. This production is a harmonious fusion of Kathak and Bharatnatyam, Urdu and Hindi poetry, intertwining past lives with present ones. It is not merely the story of individuals, but of their souls and the unfulfilled longings that transcend time.

"Transcend" inspires us to become the best versions of ourselves, embodying kindness, releasing control, and fostering an environment where others can thrive. It reminds us to let go of animosity, embrace growth, and spread positivity, creating a ripple effect of hope and goodness.
